

 Helping You Think About Jobs, Careers & Your Future

 What is a Career?

 A career means the jobs you might do in the future, the

 skills you'll use, and the things you'll learn as you grow.

 You don't need to know everything now — we're here to

 help you explore what feels right for you.

 At School, we understand that everyone is different. You

 might like clear steps, quiet spaces, or extra time to think.

 That's okay. We will help you understand your options in

 a way that works best for you.

 Gatsby Benchmarks – How We Help You

These are 8  important things schools should do to help

 with careers. Here's how we do them:

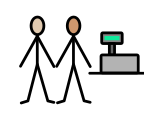

1   1. A Stable Careers Programme

 You will have  regular career lessons  every year. This includes

 simple lessons,  talks, and  fun activities to help you

 think about  work and  life skills.

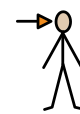

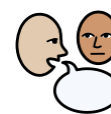

2 Learning About the World of Work

 We'll  talk about  different  jobs — from  shop assistants and  chefs

 to artists and  engineers — and how  people  work in  teams or

 on their own.

3 Meeting Employers

You'll  meet  visitors  who  can  tell  you about  their  jobs.

 You can  ask questions,  try  things out, or  watch demos.

4. Linking Careers to Lessons

In My Thinking, we might learn about money. In My

Creativity, we'll learn about working in kitchens. In art,

we'll explore creative jobs. Everything you do can link to

the world of work.

5

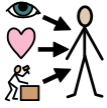

5. Meeting Different People in Work

You'll meet people with different jobs, backgrounds, and abilities

— to help you see what's possible for you.

6

6. Experiencing Workplaces

Some pupils will get to visit or work in local businesses.

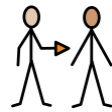

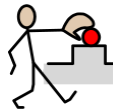

This might be a few hours or a whole week. You'll get support

before and during these visits.

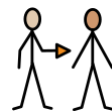

7

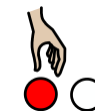

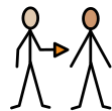

7. Getting Advice That's Right for You

We will help you talk about your dreams and worries. A

careers adviser will help you understand your choices clearly

and calmly.
