

## Protection of Biometric Information Policy

Status	Current Policy
Agreed by the Governing Board	Dec 2025
Review Cycle	Annual
Next Review	Dec 2026
Lead Staff	Lloyd Marks
Chair of Governing Body	Alex Krutnik
Headteacher	Jane Hatwell

## Vision and Values

Our school vision is to provide an *outstanding, nurturing, learning environment*, where all our pupils can achieve their full potential and progress to lead happy and fulfilling lives.

Our mission is to provide each and every pupil with the best possible education, delivered in an environment that is supportive, caring and safe.

*“Getting it right for every pupil”*

At Stone Bay we focus on *Evolving Excellence* in all that we do, working towards making our school the best it can be for pupils, staff and families. We are creating lasting *Trust* with all our stakeholders, *Empowering* each other to learn and grow. By adhering to policies and clear processes we ensure *Fairness* and transparency in our decision making and actions, whilst ensuring we are *Collaborating* with others and always looking for ways to help each other to deliver excellence for our pupils.

## Rights Respecting Schools

The Unicef UK Rights Respecting School Award (RRSA) is based on principles of equality, dignity, respect, non-discrimination and participation. The RRSA seeks to put the UN Convention on the Rights of the Child at the heart of a school's ethos and culture to improve well-being and develop every child's talents and abilities to their full potential. A Rights Respecting School is a community where children's rights are learned, taught, practised, respected, protected and promoted.

Stone Bay has been awarded the Silver Award by UNICEF. This is awarded to UK schools that show good progress towards embedding children's rights in the school's policy, practice and ethos, as outlined in the RRSA Strands and Outcomes

## Staff wellbeing

The Leadership Team and the Governing Board of Stone Bay School are committed to promoting positive mental, physical and emotional wellbeing and to providing suitable support for all staff. Taking action to prevent ill health and promote good health makes good educational and business sense, as sickness absence carries high costs both in monetary terms and in terms of the impact upon performance, teaching and learning, morale and productivity, which may disrupt or compromise pupil progress.

All members of staff are entitled to be treated fairly and professionally at all times. The Governing Board of Stone Bay School takes very seriously its duty of care as an employer to all members of staff and a number of policies and procedures have been made in relation to this duty.

**Stone Bay School does not currently collect biometric data.**

## **Statement of intent**

This policy has been created in line with the DfE's 'Protection of biometric information of children in schools and colleges' guidance, alongside other relevant legislation.

Stone Bay School is committed to protecting the personal data of all its pupils and staff, this includes any biometric data we collect and process.

We collect and process biometric data in accordance with relevant legislation and guidance to ensure the data and the rights of individuals are protected. This policy outlines the procedure the school will follow when collecting and processing biometric data.

## **Legal framework**

This policy has due regard to all relevant legislation and guidance including, but not limited to, the following:

- Protection of Freedoms Act 2012
- Data Protection Act 2018
- General Data Protection Regulation (GDPR)
- DfE (2018) 'Protection of biometric information of children in schools and colleges'

This policy operates in conjunction with the following School policies:

- Data Protection and Information Policy
- Acceptable Use Policy
- Staff Behaviour Policy

## **Definitions**

**Biometric data:** Personal information about an individual's physical or behavioural characteristics that can be used to identify that person, including their fingerprints, facial shape, retina and iris patterns, and hand measurements.

**Automated biometric recognition system:** A system which measures an individual's physical or behavioural characteristics by using equipment that operates 'automatically' (i.e. electronically). Information from the individual is automatically compared with biometric information stored in the system to see if there is a match in order to recognise or identify the individual.

**Processing biometric data:** Processing biometric data includes obtaining, recording or holding the data or carrying out any operation on the data including disclosing it, deleting it, organising it or altering it. An automated biometric recognition system processes data when:

- Recording pupils' biometric data, e.g. taking measurements from a fingerprint via a fingerprint scanner.
- Storing pupils' biometric information on a database.
- Using pupils' biometric data as part of an electronic process, e.g. by comparing it with biometric information stored on a database to identify or recognise pupils.

Special category data: Personal data which the GDPR says is more sensitive, and so needs more protection – where biometric data is used for identification purposes, it is considered special category data.

## **Roles and responsibilities**

The Governing Board is responsible for reviewing this policy every year.

The Headteacher is responsible for ensuring the provisions in this policy are implemented consistently.

The Data Protection Officer (DPO) is responsible for:

- Monitoring the School's compliance with data protection legislation in relation to the use of biometric data.
- Advising on when it is necessary to undertake a data protection impact assessment (DPIA) in relation to the school's biometric system(s).
- Being the first point of contact for the ICO and for individuals whose data is processed by the school and connected third parties.

## **Data protection principles**

Stone Bay School process all personal data, including biometric data, in accordance with the key principles set out in the GDPR.

Stone Bay School ensures biometric data is:

- Processed lawfully, fairly and in a transparent manner.
- Only collected for specified, explicit and legitimate purposes, and not further processed in a manner that is incompatible with those purposes.
- Adequate, relevant and limited to what is necessary in relation to the purposes for which they are processed.
- Accurate and, where necessary, kept up-to-date, and that reasonable steps are taken to ensure inaccurate information is rectified or erased.
- Kept in a form which permits identification of data subjects for no longer than is necessary for the purposes for which the personal data are processed.
- Processed in a manner that ensures appropriate security of the information, including protection against unauthorised or unlawful processing and against

accidental loss, destruction or damage, using appropriate technical or organisational measures.

As the data controller, Stone Bay School is responsible for being able to demonstrate its compliance with the provisions outlined in the Data Protection Principles

### **Data protection impact assessments (DPIAs)**

Prior to processing biometric data or implementing a system that involves processing biometric data, a DPIA will be carried out.

The DPO will oversee and monitor the process of carrying out the DPIA.

The DPIA will:

- Describe the nature, scope, context and purposes of the processing.
- Assess necessity, proportionality and compliance measures.
- Identify and assess risks to individuals.
- Identify any additional measures to mitigate those risks.

When assessing levels of risk, the likelihood and the severity of any impact on individuals will be considered.

If a high risk is identified that cannot be mitigated, the DPO will consult the ICO before the processing of the biometric data begins.

The ICO will provide the school with a written response (within eight weeks or 14 weeks in complex cases) advising whether the risks are acceptable, or whether the school needs to take further action. In some cases, the ICO may advise the school to not carry out the processing.

Stone Bay School will adhere to any advice from the ICO.

### **Notification and consent**

Please note that the obligation to obtain consent for the processing of biometric information of children under the age of 18 is not imposed by the Data Protection Act 2018 or the GDPR. Instead, the consent requirements for biometric information is imposed by section 26 of the Protection of Freedoms Act 2012.

Prior to any biometric recognition system being put in place or processing a pupil's biometric data, the school will send the pupil's parents/carers a Parental Notification and a link for them to consent to the use of Biometric Data.

Consent will be sought from parents/carers of the pupil before the school collects or uses a pupil's biometric data.

Notification sent to parents/carers and other appropriate individuals or agencies will include information regarding the following:

- Details about the type of biometric information to be taken
- How the data will be used
- The parent's/carer's and the pupil's right to refuse or withdraw their consent
- The school's duty to provide reasonable alternative arrangements for those pupils whose information cannot be processed

The school will not process the biometric data of a pupil under the age of 18 in the following circumstances:

- The pupil (verbally or non-verbally) objects or refuses to participate in the processing of their biometric data
- No parent or carer has consented in writing to the processing
- A parent has objected in writing to such processing, even if another parent has given written consent

Parents/carers and pupils can object to participation in the school's biometric system(s) or withdraw their consent at any time. Where this happens, any biometric data relating to the pupil that has already been captured will be deleted.

If a pupil objects or refuses to participate, or to continue to participate, in activities that involve the processing of their biometric data, the school will ensure that the pupil's biometric data is not taken or used as part of a biometric recognition system, irrespective of any consent given by the pupil's parent(s).

Pupils will be informed that they can object or refuse to allow their biometric data to be collected and used.

Where staff members or other adults use the school's biometric system(s), consent will be obtained from them before they use the system.

Staff and other adults can object to taking part in the school's biometric system(s) and can withdraw their consent at any time. Where this happens, any biometric data relating to the individual that has already been captured will be deleted.

## **Alternative arrangements**

Parents/carers, pupils, staff members and other relevant adults have the right to not take part in the school's biometric system(s). Where an individual objects to taking part in the school's biometric system(s), reasonable alternative arrangements will be provided that allow the individual to access the relevant service.

Alternative arrangements will not put the individual at any disadvantage or create difficulty in accessing the relevant service, or result in any additional burden being placed on the individual (and the pupil's parents/carers, where relevant).

## **Data retention**

Biometric data will be managed and retained in line with the School's Data Protection and Information Policy.

If an individual (or a pupil's parent, where relevant) withdraws their consent for their/their child's biometric data to be processed, it will be erased from the school's system.

## **Breaches**

There are appropriate and robust security measures in place to protect the biometric data held by the School. Any breach to the school's biometric system(s) will be dealt with by the school and DPO.

## **Monitoring and review**

The Protection of Biometric information Policy will be reviewed by the IT Manager annually. Any changes made to this policy will be communicated to all staff, parents/carers and pupils.
